## **ANNOUNCEMENTS**

**IT'S ELECTON SEASON! ARE YOU REGISTERED TO VOTE? DO YOU KNOW THE ISSUES? THE CANDIDATES?** A coalition of students, faculty and staff are leading the Marlins VOTE initiative on campus this year, with a plan to sustain the effort all year and for years to come. Planned are opportunities throughout the Fall to register voters, provide information and access to absentee ballots, connect students with election engagement prospects, and educate about candidates and issues. Active in this effort are the Political Science Department and classes, Marlin VOTE, Black Student Union, Alpha Kappa Alpha Sorority Inc., College Republicans, Generation Action, the Office of Community Service, The Lighthouse and The Center for the Study of Religious Freedom.

**WHAT IS TERRACYCLE?** What do **foil-lined energy bar wrappers** and **oral care and beauty product containers** have in common? They wind up in the landfill because they cannot be recycled or broken down and remade, but they can be upcycled and made into other products, or repurposed. What does this have to do with you? Back in April, Virginia Wesleyan partnered with Terracycle (<https://www.terracycle.com/en-US/>) to collect these items for which we receive points toward repurposed items we can use on campus, like benches, or cash we can donate to a non-profit or convert to cash to support our recycling program. Our initial trail period (April to July), yielded three boxes of materials. We are rolling out Oral Care and Beauty Product Terracycle brigades at various locations on campus. Repositories for these items can also be found in Community Service and the Library. Foil-lined Energy Bar Wrapper collection spots are at Recycle Stations in Batten and the Library. You are invited to bring your items to any of these locations. Collections will be monthly and shipments made at the end of each semester. Please help us keep the upcycling and recycling streams pure by redirecting folks who want to use the bins for trash. Stay tuned for future updates on the progress of these efforts. In the meantime, bring in your items to recycle, upcycle and compost. Be part of making our planet great again! If you have questions, concerns or suggestions about the Terracycle effort, please contact Technical Services Librarian Sophie Rondeau or Director of Community Service Diane Hotaling.

**A WORD ABOUT COMPOSTING**--Our Grounds Supervisor Kathy Bartkus has made it possible for you to compost on campus, as well. You may bring your organic food waste (think coffee grounds, egg shells, vegetables--no meat) to the recycle station near the Physical Plant and deposit it in the green container with the flip top. It will be added to our compost pile and used to brew "compost tea" which is a natural fertilizer for campus plants and flower beds.

**DOCUMENT YOUR SERVICE. USE THE ON-LINE SERVICE LOG**—Students needing to document their service hours have the opportunity to record them as they go through this on-line, on-your-honor service log system. Go to [www.vwc.edu/service](http://www.vwc.edu/service) where you will find a button on the homepage that says DOCUMENT YOUR SERVICE. Once there, you will be asked to register the first time you access the system. After that, you will be sent directly to the log where you can input a description of your volunteer work and hours. If you are in Honors and Scholars, be sure to check the Honors and Scholars line in the Service Type box. You may print your log to submit wherever your service is required.

**ITEMS TO RECYCLE: LAPTOPS, TABLETS, MP3 PLAYERS, DIGITAL VIDEO/CAMERAS, GAME CONSOLES, GPS DEVICES, T1 GRAPHING CALCULATORS**—These items, in addition to ink jet cartridges, alkaline batteries and cell phones, can all be recycled in the Office of Community Service. Bring old and broken items to the Office. Proceeds from recycling benefit Office programming. Just over \$100 was added to the Office budget last year from these donations.
