The **PORTfolio Program** integrates the classroom on campus with the community off campus as well as pointing you towards a fulfilled life after you leave Virginia Wesleyan. The program is *student-centered*—built upon the principle that students learn most effectively when they are given the responsibility for their own education; therefore, **PORTfolio** continues to evolve according to its participants' needs and interests. In the space provided, write a couple of paragraphs that indicate why you are interested in the **PORTfolio Program** and what personal skills and motivations you would bring that would enhance the Program's effectiveness. *(You may use the back if you need more room.)*
